#### Reports:

#### **Internet Update (Jim Copley):**

- Network upgrades have occurred throughout the years. We've replaced hardware at 25 different sites (funded by E-rate discounts). Schools started with bandwidth speed of 50Megabits per second (Mbps), increased to 100Mbps, and now have upgraded to 500-1000Mbps. We continue to upgrade bandwidth to accommodate Gigabit speed. Increased bandwidth is used for data, Internet, videoconferencing, business, etc.
- E-rate discounts have been **good** for ESUs and schools. ESU #13's E-rate consortium has allowed member districts to access \$2.6 million in discounts for data circuits and phone bills.

- Member districts (with exception of Banner County and Garden County) can accommodate Gigabit speed. We are working with telephone companies to get those two schools upgraded.
- We are on the right track with our bandwidth speed. The broadband imperative for Internet capacity for 2017-2018 is 1000Megabits per 1000 users; and, if the bandwidth is available, schools will use it.
- In conclusion: The state of the network is strong. We are looking forward to providing bandwidth needed for the next four years. ESU's E-rate consortium provides discounted rates to member districts (shared cost). It is a nice family arrangement.

A thank you was extended to Jim Copley for his work with Internet, the E-rate consortium, and for knowing both sides of Internet—technical and bureaucratic. "He is one of the best in the State and ESU #13 is fortunate to have him on staff. He will be hard to replace."—Jeff West. Jim noted that cross training is constant.

### Administrator's Report (Jeff West):

- Still working on two issues with the new addition—HVAC and counter in reception area. We are holding funds until those issues are completed to our satisfaction.
- We are working on landscaping designs with Dick Meyer and Anita's Greenscaping. We will let bids for the landscaping and sprinkler system projects. If furniture and signage for the new addition require the formal bidding process, we will complete that as well.
- We have removed several trees in the front of the building that were diseased and dying.
- Other projects to complete include: replace boiler system and controls in the original building; replace walking path around the grounds; extend the vehicle storage building to add two additional car bays and one larger bay for two buses; replace sidewalks as needed; explore efficient heating systems for the Meridian classrooms; replace cooling system in the Sixpence Offices; replace millings in parking lots with concrete; and replace siding on the multi-purpose room and out buildings. We are working with Baker & Associations regarding these projects.
- Suggestions: Combine the three projects dealing with climate control into one project (Johnson Controls, Honeywell). Is there an energy grant that would help defray costs? Are rebates available?
- Sidney ESU Office: We are on hold until we explore our options (changes with Cabela's)—buying an existing facility might be more cost effective.
